## Symbols

puzzle piece	links	penguin
gears	bees	compass
brain	honeycomb	soundwaves
light bulb	hexagon	web app
maze	ear	sigma
code	speech bubble	arrow
game controller	drums	constellation

## Artist Statement

The symbols involved are the hexagon and gear. The hexagon symbolizes teamwork and is a reference to honeycomb from a beehive. The gear symbolizes logical thinking and problem solving. The hexagon is split evenly with blue and orange to symbolize balance between my creative and logical sides. Creativity is orange and calm/collected thinking is blue. The soft G in the center stands for my last name, Gieske. It is also supposed to mimic the circle that surrounds it. The strongest aspects of this logo is the symmetry and the use of negative space because it makes it looks clean, not cluttered, and pleasing to look at.
